

FEBRUARY - MARCH 2026 EDITION

FREE TO TAKE HOME!

Shingles Vaccination

Christmas Kilos

Back-to-School Health

Cervical Cancer Screening

● PRACTICE DOCTORS

Dr Peter Louie

MBBS(WA), BSc, FRACGP
Family Medicine, Acupuncture, Diving
Medicals & Skin Checks

Dr Wang-Jet Yee

MBBS(WA), FRACGP
Family Medicine, Minor Surgery &
Proactive Skin Checks

Dr Marcela Pantoja de Galvez

MBBS, AMC, FRACGP
Family Medicine, Women's Health &
Acupuncture. Speaks Spanish.

Dr Sean Thomas

MBBCh, BAO, LRCPI, LRCSI, NUI
Family Medicine, Interest in Cardiology
& Rheumatology

Dr Jonathan Lim

MBBS, DCH, FRACGP, MSPMED
Family Medicine & Sports Medicine

Dr Eashani Valemurugan

MBBS(Sri Lanka), MD(Sri Lanka), FRACGP

Dr Yure Pavic

BMedSci, MBBS, Grad Dip OHS, FRACGP, CIME,
FAFOEM
General & Occupational Medicine

Dr Dilshad Dhaliwal

MBBS, DCH, FRACGP
Other languages spoken for Dr Dhaliwal:
Bahasa Malaysia, Hindi, Punjabi

Dr Annette Camer-Pesci

MBBS, FRACGP, Bachsc
Family Medicine, Preventive Medicine, Sports
Medicine & Chronic Health Disease

Dr Rob Seeley

MBBS
Family Medicine & General Medicine

Dr Sanam Nikdehghan

(GP Registrar) MBBS

Dr Lotte Schulz

(GP Registrar) MBBS

Dr Ryan Kang

(GP Registrar) MBBS

Dr Ellen Hayes

(GR Registrar) MBBS

● PRACTICE STAFF

Practice Manager:

Rachael Bradley

Nurses:

Julie, Pat, Natasha, Kerry, Victoria
& Kate

Reception Staff:

Joanne, Ioli, Ada, Rosa, Cristina,
Karen, Louisa, Tayla, Rebekah, Anna,
Chanelle & Mari

● SURGERY HOURS

Monday to Thursday 7am – 7pm | Friday 7am - 6pm
Saturday 8am – 1pm

● BILLING

- Private Practice
 - Standard Appointments \$90 with a rebate of \$43.90
 - Long Consultations \$150 with a rebate of \$84.90
 - Weekend Consultations \$95 with a rebate of \$43.90
- (there is no bulk billing on this day including children 12 and under)
- We Bulk Bill all concessions Card Holders and Under 16 year old's Monday-Friday before 5pm ONLY.
 - Please kindly note there is no Bulk Billing after 5pm weekends or weekends for Concession Card Holders and Under 16 year old's.

● AFTER HOURS & EMERGENCY

The Practice provides 24 hour care for patients together with an Accredited Locum Service, who will provide you with home visits.

Emergency.....000
Locum Service 1300 644 483
SJOG Murdoch.....9366 1111
Fiona Stanley Hospital 6152 2222

● ONLINE APPOINTMENT BOOKINGS

Please add or Download the App today

South Street Medical Centre offers online appointment bookings from our website, via the HotDoc application.

Visit www.southstreetmedicalcentre.com.au and click on the "book online" button.

● PROACTIVE SKIN CHECKS AVAILABLE AT SSMC

Performed by Dr Peter Louie & Dr Wang-Jet Yee

● OCCMEDIC CORPORATE & INDUSTRIAL HEALTH AT SSMC

Performing Workers Compensations, Motor Vehicle Claims and Pre Employment Medicals.

Same day appointments available – Performed by Dr Yure Pavic – Occupational Physician

● OTHER SERVICES AVAILABLE AT SSMC INCLUDE

- Physiotherapy
- Vision Care
- Active Podiatry
- Chiropractor
- Pathology

Email Communication. Email is not a secure form of communication and we do not use this to communicate personal information to patients without their consent. Whilst we make every effort to keep your information secure it is important for patients to be aware of the risks associated with electronic communication, in that the information could potentially be comprised and accessed by someone other than the intended recipient. Patients must be aware that any communication they direct to the surgery via email is also NOT secure and confidentially cannot be guaranteed. Patients communicating through email do so at their own risk.

If you do choose to contact the surgery via email this will be considered as patient consent to reply via email.

We endeavour to reply to all emails within 2 working business days. Our emails are checked on a regular basis, however they are not constantly monitored. If you have an issue that requires urgent attention, we request that you contact the practice via telephone on 9337 7888.

Shingles Vaccination (Shingrix) & Dementia: What We Know

Shingrix is one of the leading shingles (herpes zoster) vaccines in Australia and is recommended for older adults to prevent shingles and its complications. Shingles is caused by reactivation of the varicella-zoster virus, which remains dormant in the body after childhood chickenpox. While shingles is best known for causing a painful rash, growing research suggests it may also have broader impacts on long-term brain health.

Recent international studies have observed an association between shingles infection and an increased risk of cognitive decline and dementia. Chronic inflammation and viral effects on the nervous system are thought to play a role. Interestingly, emerging evidence indicates that people who receive a shingles vaccine, particularly Shingrix, may have a lower risk of developing dementia compared with those who are unvaccinated. While this research does not yet prove direct cause and effect, the findings are encouraging.

Shingrix works by boosting the immune system's ability to keep the virus suppressed, reducing the chance of shingles occurring in the first place. By preventing shingles and the inflammation it can cause, vaccination may indirectly support long-term brain health.

Importantly, Shingrix is already recommended because it is highly effective at preventing shingles and post-herpetic neuralgia. Any potential added benefit for dementia prevention is an added reason to discuss vaccination with your GP.

If you are aged 65 years and over or 50 and over for Aboriginal and Torres Strait Islanders then speak with your GP about your eligibility for a free vaccine.

Shedding the Christmas Kilos

The festive season is a time for celebration, good food, and relaxation, but it can also lead to a few extra kilos. The good news is that shedding Christmas weight doesn't require extreme dieting or intense exercise. Small, consistent changes can make a big difference.

Start by getting back into regular movement. Walking, swimming, cycling, or light gym sessions are excellent ways to burn calories and boost energy, especially during the warmer summer months. Aim for at least 30 minutes of activity most days of the week.

Next, focus on balanced eating rather than restriction. Fill your plate with vegetables, lean proteins, whole grains, and fresh fruit. Reducing portion sizes, limiting sugary drinks, and cutting back on alcohol can significantly lower calorie intake without feeling deprived.

Hydration is also key. Drinking plenty of water helps control appetite and supports metabolism. Finally, be patient with yourself. Healthy weight loss takes time, and sustainable habits are far more effective than quick fixes.

By easing back into routine and making mindful choices, those Christmas kilos will gradually disappear.

Back-to-School Health & Immunity

As February marks the return to school across Australia, many families notice a familiar pattern: busy mornings, close contact with classmates, and the spread of common colds and bugs. Supporting children's health and immunity at the start of the school year can help reduce illness and keep them feeling their best.

A strong immune system starts with the basics. Adequate sleep is essential, particularly as children adjust back into school routines. Establishing consistent bedtimes helps support immune function, concentration, and mood. Nutrition also plays a key role. Balanced meals that include fruits, vegetables, whole grains, lean proteins, and dairy provide important vitamins and minerals such as vitamin C, zinc, and iron, which support immune health. Packing a nutritious lunchbox can make a big difference to energy levels throughout the day.

Good hygiene habits are another crucial line of defence. Encouraging regular hand washing with soap and water—

especially before eating and after using the bathroom—helps limit the spread of germs. Teaching children to cover coughs and sneezes and to avoid sharing drink bottles can further reduce transmission of illness.

Staying physically active supports overall health and immunity, but it's equally important to allow time for rest. After-school downtime helps children recover from busy days and prevents burnout. Keeping vaccinations up to date is also an important step in protecting children and the wider school community.

By focusing on sleep, nutrition, hygiene, and routine, families can help children transition smoothly back to school and build resilience for a healthy year ahead.

The Importance of Cervical Screening with Your GP

Cervical screening is one of the most effective ways to protect women's health, yet many people delay or avoid it due to uncertainty or discomfort. Regular cervical screening with your GP plays a vital role in preventing cervical cancer and detecting potential problems early, when they are easiest to treat.

Cervical screening tests look for human papillomavirus (HPV), a common virus that can cause changes to cervical cells over time. Most people will have HPV at some stage in their lives, often without knowing it. In many cases the virus clears on its own, but in some women it can lead to abnormal cell changes that, if left untreated, may progress to cancer. Screening helps identify these changes long before symptoms appear.

Seeing your GP for cervical screening also provides an opportunity for personalised care. Your doctor can explain the test, address concerns, and ensure you feel comfortable throughout the process. They can also discuss your individual risk factors, screening intervals, and any follow-up that may be needed. For many women, reassurance and clear information from a trusted GP can make a significant difference in attending regular screening.

Importantly, cervical cancer is one of the most preventable cancers. Regular screening has been shown to dramatically reduce both the incidence of cervical cancer and deaths from the disease. Even if you feel healthy, have no symptoms, or have received the HPV vaccine, screening remains essential.

Prioritising cervical screening is a simple but powerful step toward long-term health. Booking an appointment with your GP could truly be life-saving.

Spirulina: A Nutrient-Dense Superfood

Spirulina is a blue-green algae that has gained popularity as a natural health supplement due to its impressive nutritional profile. Available as a powder or tablet, spirulina is rich in protein, vitamins, minerals, and antioxidants, making it a convenient addition to a balanced diet.

One of spirulina's key benefits is its high protein content, containing all essential amino acids. This makes it particularly appealing for people following vegetarian or plant-based diets. It is also a good source of iron, B vitamins, magnesium, and iodine, nutrients that support energy levels, muscle function, and overall wellbeing.

Spirulina is well known for its antioxidant and anti-inflammatory properties, largely due to a compound called phycocyanin. Antioxidants help protect cells from oxidative stress, which is linked to ageing and many chronic diseases. Some studies suggest spirulina may support immune function, improve cholesterol levels, and assist with blood sugar control when combined with healthy lifestyle habits.

Additionally, spirulina may help combat fatigue and support recovery after exercise. It is often added to smoothies or juices, although its strong taste may take some getting used to.

As with any supplement, spirulina should be used responsibly. It's best to discuss its use with your GP, particularly if you are pregnant, immunocompromised, or taking medications.

SPIRULINA BLISS BALLS

These no-bake spirulina bliss balls are quick to make, naturally sweet, and perfect for a healthy snack or lunchbox treat.

Ingredients (Makes ~12 balls):

- 1 cup rolled oats
- ½ cup pitted dates
- 2 tablespoons almond butter or peanut butter
- 1 tablespoon chia seeds
- 1 tablespoon shredded coconut (plus extra for rolling)
- ½ teaspoon spirulina powder
- 1–2 tablespoons water (as needed)
- ½ teaspoon vanilla extract (optional)

Method:

1. Place the rolled oats and dates into a food processor and pulse until finely chopped.
2. Add nut butter, chia seeds, coconut, spirulina, and vanilla.
3. Process until the mixture begins to stick together. Add water gradually if the mixture is too dry.
4. Roll tablespoon-sized portions into balls.
5. Roll in extra coconut if desired.
6. Refrigerate for at least 30 minutes to firm up.

Serving & Storage

Store in an airtight container in the fridge for up to one week, or freeze for up to one month.

Why You'll Love Them

Spirulina adds antioxidants and plant-based protein, while oats and dates provide lasting energy. The sweetness of dates balances spirulina's earthy flavour, making these bliss balls both nutritious and delicious.

● SPECIAL PRACTICE NOTES

Results.

These are best discussed in a follow-up consultation to ensure proper medical care, review of condition and re-examination. Results over the phone are not recommended because of lack of confidentiality, inability to reassess condition and the potential for misunderstanding.

Referrals.

Doctors in this practice are competent at handling common health problems. When necessary, they can refer you for further investigation. You can discuss this openly with your doctor.

Phone Calls.

Due to a lack of confidentiality, the inability to assess the physical condition and the potential for misunderstanding, patients are discouraged from phoning the surgery to speak to the Doctor. It is preferable that an appointment be made with your preferred Doctor. However, queries may be dealt with by leaving a message explaining your request with the reception staff, who will pass this onto the Doctor/Nurse for further action.

Reminder System.

Our practice is committed to preventative care. Your doctor will seek your permission to be included in our reminder system. We may issue you with a reminder notice from time to time offering you preventative health services appropriate to your care. If you do not wish to be part of this system please let your doctor or the receptionist know. We encourage self-responsibility in your health.

Complaints/Suggestions.

These may either be placed in the suggestion box in the reception area, or directed to Health & Disability Services Complaints Office (HADSCO). GPO Box B61, Perth 6838, Tel 9323 0600.

Your medical record is a confidential document.

It is the policy of this practice to maintain security of personal health information at all times and to ensure that this information is only available to authorised members of staff. We abide by the 10 National Privacy Principles available at: www.privacy.gov.au/health/index.html

This practice has a no smoking policy.
